

ENHANCED PERFORMANCE

Air Conditioning & Heating

ARUF AIR HANDLERS

Thank goodness for Goodman.®

Air Conditioning & Heating

ARE YOU GETTING THE MOST OUT OF YOUR HOME'S HEATING AND COOLING SYSTEM?

You've taken care to select reliable, long-lasting heating and cooling equipment for your household. Take that attention to quality one step further by choosing a Goodman® brand air handler for your system. Goodman® brand air handlers help ensure that your heating and cooling system will provide your family with reliable, efficient comfort for years to come.

ENERGY EFFICIENCY EQUALS COMFORT

BEYOND TEMPERATURE CONTROL

Goodman brand ARUF Air Handlers feature a direct-drive, multi-speed blower motor. When connected to a properly sized ducted system this reduces the likelihood of hot and cold spots in the house.

R-410A REFRIGERANT

Your new Goodman brand ARUF Air Handler will not only provide you with cooling performance for many years, but it also features R-410A refrigerant. Since this refrigerant does not contain chlorine, it is more environmentally friendly than R-22 refrigerant.

REDUCE INDOOR HUMIDITY

A warm summer day is fine as long as humidity doesn't cause you to break into a sweat when walking from your house to the car. The same applies indoors. You're more comfortable inside your home when the moisture level is lower – just as you are more comfortable outside when it's not as humid.

Goodman systems are designed to improve air comfort by lowering indoor moisture levels.

The SmartFrame™ Sub-Structure

At the core of the ARUF Air Handler design is the SmartFrame inner skeleton. This skeleton not only adds lateral stability to the chassis, but also provides a mounting location for all internal components and provides additional insulation retention.

- 21" depth for easier attic access
- Foil-faced insulation internally covers the entire blower case reducing operating sound and cabinet condensation potential
- Coil-mounting track for quick 4-way, multi-positioning

IMPRESSIVE FEATURES AND BENEFITS:

Goodman® brand ARUF Air Handler

Standard Features

- 1.5- to 5-ton blower capacities
- All-Aluminum evaporator coil in most models
- Embossed cabinet and doors increase cabinet strength
- Factory-installed filter rack
- Field-installed electric heat from 3-25 kW
- Transformer and blower time-delay
- AHRI Certified; ETL Listed
- Multiple electrical knockouts
- Improved water management

Cabinet Features

- New rigid SmartFrame™ cabinet
- 21" depth for easy attic access
- Foil-faced cabinet insulation
- Galvanized, leather grain-embossed finish
- Glue-less cabinet insulation retention
- Screw-less sides and back prevents condensation
- Multi-position capability; upflow, downflow, horizontal or vertical
- Coil-mounting track for quick repositioning
- Tool-less filter access accommodates standard-size filters
- Easy single-bulb UV light compatibility
- Heavy-gauge bottom plate
